Meridian Desk

Model #MMD-600

Overview

Revolutionary solution that seamlessly blends student protection, ergonomic comfort, and flexible functionality. Detachable work surfaces whiteboards one attached to either side. Color coated hand crank handle for effortless adjustments, it promotes an adaptable and secure workspace. Adjustable in 1-inch increments and equipped with fixed locking casters, this desk ensures stability and mobility. Perfect for dynamic learning environments, the Elemental Safety Desk is where student security meets innovative design.

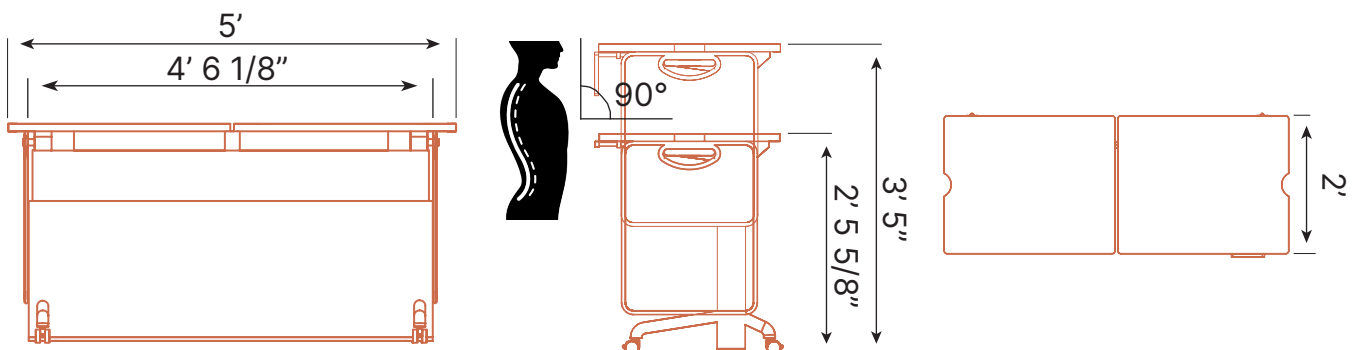

Materials

The Meridian Desk incorporates a protective UHMWPE Ballistic Panel core wrapped in high-pressure laminate available in various color options, complemented by customizable edge colors. The desk is supported by steel leg sets with a durable powder-coat finish offered in multiple color options for design flexibility. A colored-coated hand crank handle enables effortless height adjustments in 1-inch increments. The design features detachable work surface whiteboards, while fixed locking casters provide both stability and mobility to create an adaptable, secure workspace suitable for dynamic educational environments.
